Brief Overview

CrOMS helps a treasurer manage contributions for the groups they are assigned to.

As a treasurer, you can:

- sign in and change your password
- see only the groups and campaigns you belong to
- create campaigns for your assigned groups
- add payment methods for those campaigns
- log M-Pesa payments
- log cash payments
- review and approve unclear contributor matches
- generate and copy WhatsApp contribution summaries
- export campaign reports in CSV, Excel, and PDF
- delete incorrect transactions after confirming your current password

As a treasurer, you cannot:

- create users
- create or delete groups globally
- access campaigns from other groups
- use the admin-only workspace unless you also have admin rights

Who This Manual Is For

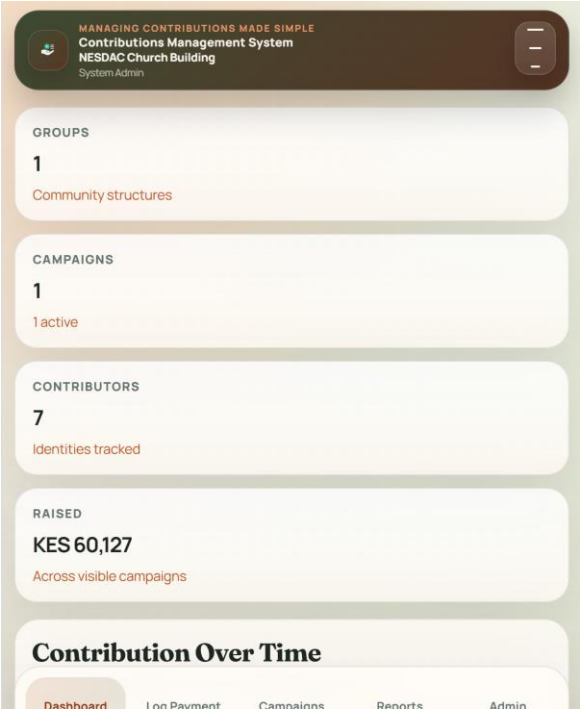
This manual is for users with the `treasurer` role in CrOMS.

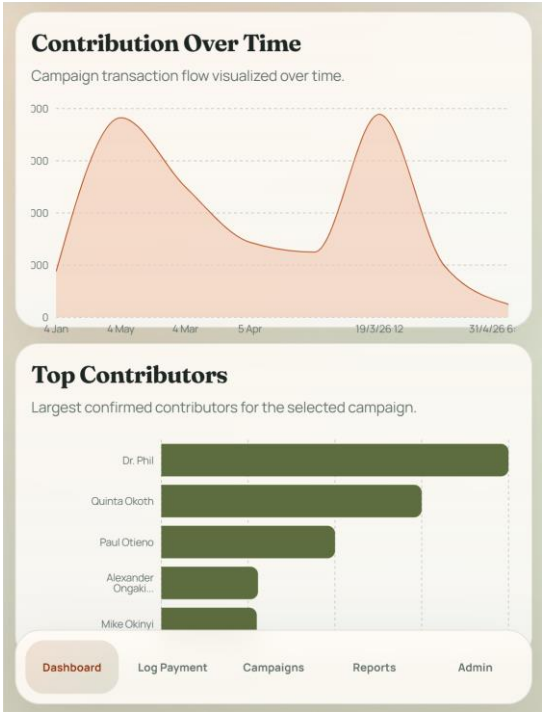
It explains the normal day-to-day work of recording contributions, checking summaries, and exporting reports.

Main Screens You Will Use

Dashboard

The dashboard shows:



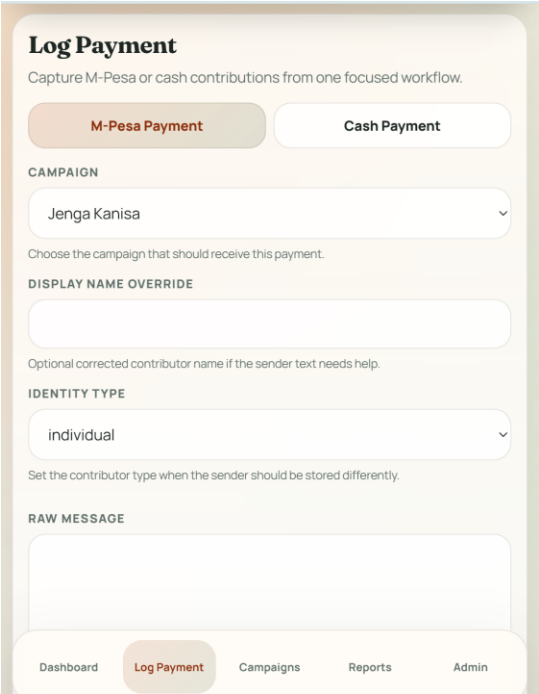


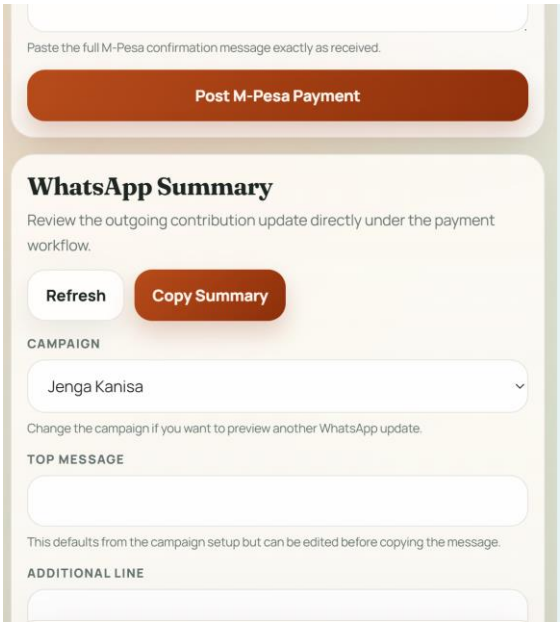
- your visible campaigns
- contribution totals
- contributor totals
- chart summaries for the selected campaign

Use the dashboard to get a quick view of current activity before recording or reviewing payments.

Log Payment

This is the main working screen for a treasurer.



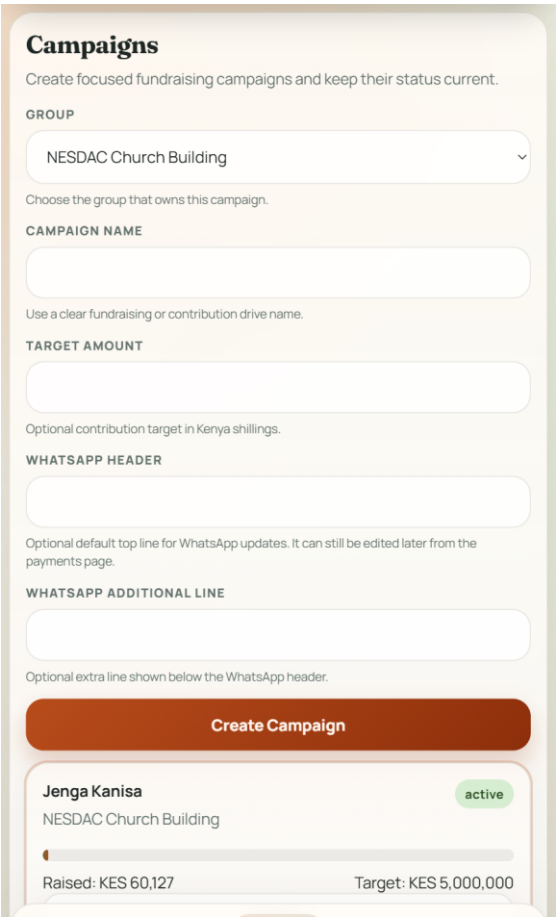


It includes:

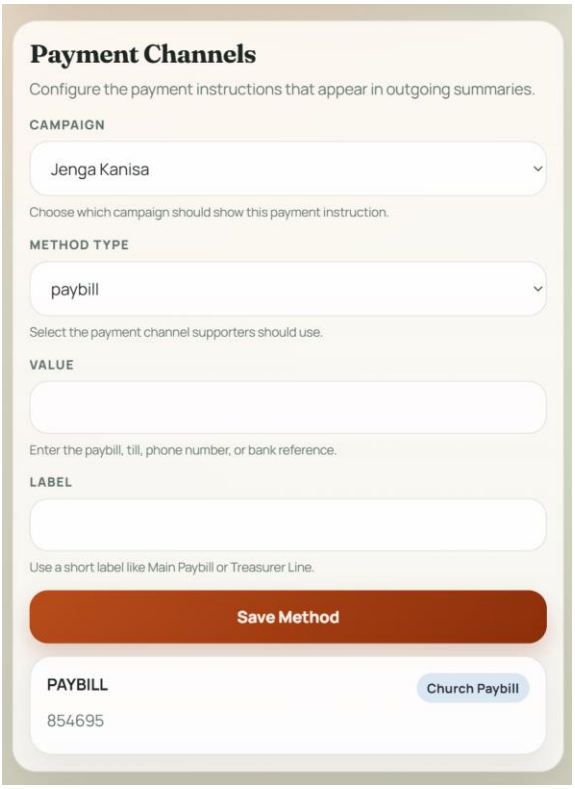
- M-Pesa payment logging
- cash payment logging
- WhatsApp summary preview and copy
- pending review items for unclear contributor matches

Campaigns

Use the campaigns page to:



Campaigns
Create focused fundraising campaigns and keep their status current.
GROUP
NESDAC Church Building
Choose the group that owns this campaign.
CAMPAIGN NAME
Use a clear fundraising or contribution drive name.
TARGET AMOUNT
Optional contribution target in Kenya shillings.
WHATSAPP HEADER
Optional default top line for WhatsApp updates. It can still be edited later from the payments page.
WHATSAPP ADDITIONAL LINE
Optional extra line shown below the WhatsApp header.
Create Campaign
Jenga Kanisa
active
NESDAC Church Building
Raised: KES 60,127
Target: KES 5,000,000

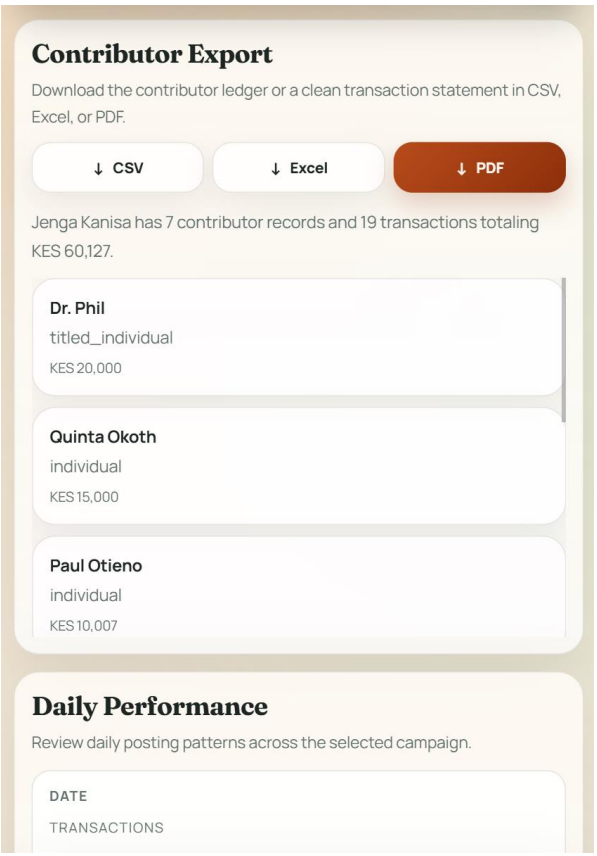


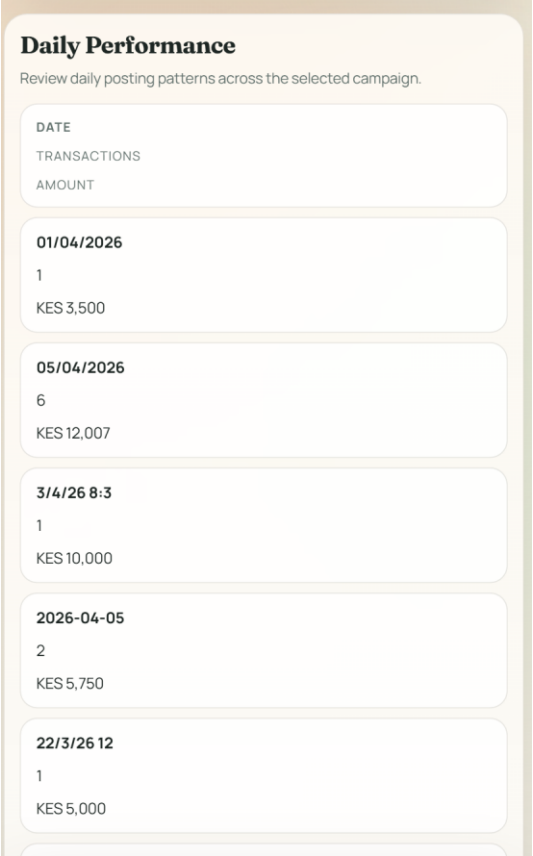
Payment Channels
Configure the payment instructions that appear in outgoing summaries.
CAMPAIGN
Jenga Kanisa
Choose which campaign should show this payment instruction.
METHOD TYPE
paybill
Select the payment channel supporters should use.
VALUE
Enter the paybill, till, phone number, or bank reference.
LABEL
Use a short label like Main Paybill or Treasurer Line.
Save Method
PAYBILL
Church Paybill
854695

- create a new campaign
- set a target amount
- set default WhatsApp header text
- set default WhatsApp additional text
- add payment channels such as paybill, till, phone, or bank
- change a campaign between `active` and `closed`

Reports

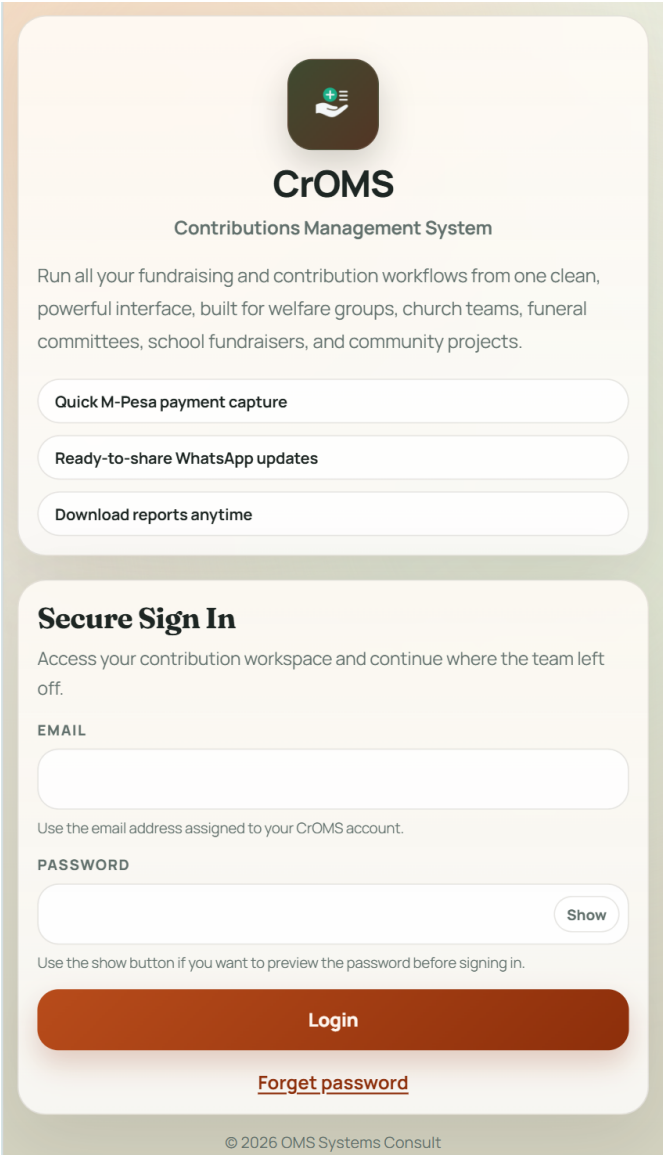
Use the reports page to:





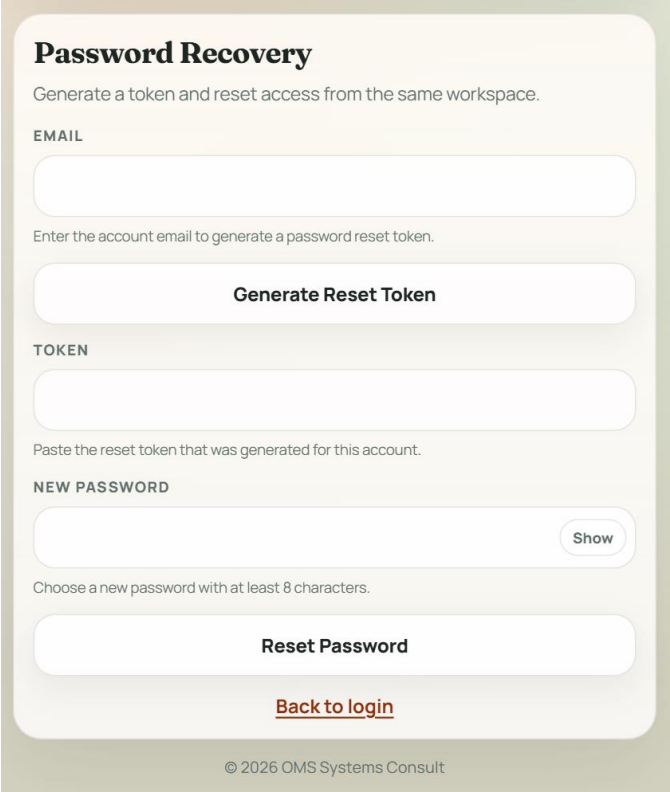
- review contributor totals
- review transaction totals by day
- export CSV, Excel, and PDF reports
- delete incorrect transactions after password confirmation

Sign In



1. Open the CrOMS login page.
2. Enter your email address.
3. Enter your password.
4. Select `Login`.

If you forgot your password:



5. Select `Forget password`.
6. Enter your email address to generate a reset token.
7. Enter the token and a new password.
8. Return to login and sign in again.

How Group Access Works

CrOMS is group-isolated.

This means:

- you only see groups you belong to
- you only see campaigns under those groups
- you only see contributors, transactions, summaries, and reports for those campaigns

If you cannot see a campaign or report, it usually means your account is not assigned to that group.

Common Treasurer Tasks

1. Create a Campaign

1. Open `Campaigns`.
2. Select the group you are allowed to manage.
3. Enter the campaign name.
4. Enter a target amount if needed.
5. Enter an optional WhatsApp header.
6. Enter an optional extra WhatsApp line.
7. Select `Create Campaign`.

Use clear campaign names such as:

- Building Fund April 2026
- Welfare Support Drive
- Funeral Contribution Appeal

2. Add a Payment Method

1. Stay on the `Campaigns` page.
2. Open the `Payment Channels` section.
3. Select the campaign.
4. Select the method type.
5. Enter the payment value.
6. Enter a clear label.
7. Select `Save Method`.

Examples:

- Paybill with an account name
- Till number
- Treasurer phone number
- Bank account details

These payment methods appear in the WhatsApp summary.

3. Log an M-Pesa Payment

1. Open `Log Payment`.
2. Stay on the `M-Pesa Payment` tab.
3. Select the campaign.
4. Paste the full M-Pesa message exactly as received.
5. Optionally enter a display name override if the sender name needs correction.
6. Optionally adjust the identity type.
7. Select `Post M-Pesa Payment`.
8. Review the confirmation prompt.
9. Confirm to post the transaction.

Possible results:

- `Contribution stored` means the payment was saved immediately.
- `Contribution queued for review` means CrOMS could not confidently match the contributor.
- `Duplicate transaction ignored` means the transaction code already exists in the system.

4. Log a Cash Payment

1. Open `Log Payment`.
2. Switch to the `Cash Payment` tab.
3. Select the campaign.
4. Select an existing contributor, or type a display name for a new contributor.
5. Select the identity type.
6. Enter the amount.
7. Optionally enter a reference code.
8. Optionally enter the received date and time.
9. Optionally enter a note.
10. Select `Post Cash Payment`.
11. Review the confirmation prompt.
12. Confirm to post the cash entry.

Use cash logging for:

- church basket collections
- manual hand-delivered contributions
- event desk receipts
- treasurer-confirmed offline contributions

5. Review a Queued Contribution

Sometimes CrOMS cannot confidently match a sender to the correct contributor.

When this happens:

1. Open `Log Payment`.
2. Select the pending review item.
3. Review the sender name, amount, transaction code, and reason.
4. Choose an existing contributor if there is a match.
5. Or enter the correct display name.
6. Set the correct identity type.
7. Select `Approve and Save` to post it.
8. Or select `Reject` if it should not be posted.

Approve when:

- you know who sent the contribution
- the contributor name only needs correction
- the suggested match is clearly the right person or group

Reject when:

- the message was pasted incorrectly
- the transaction does not belong to the campaign
- the contribution cannot be trusted yet

6. Generate and Copy the WhatsApp Summary

1. Open `Log Payment`.
2. Go to the `WhatsApp Summary` section.

3. Select the campaign if needed.
4. Adjust the top message if needed.
5. Adjust the additional line if needed.
6. Choose whether to include target and deficit.
7. Select `Refresh`.
8. Review the summary text.
9. Select `Copy Summary`.
10. Paste it into WhatsApp.

The summary can include:

- campaign header text
- extra information line
- payment methods
- contributor list
- total raised
- target
- deficit

7. Export Reports

1. Open `Reports`.
2. Confirm you are looking at the correct campaign.
3. Choose one of the export buttons:
4. `CSV` for contributor ledger export.
5. `Excel` for statement export.
6. `PDF` for printable statement export.

Use:

- CSV for simple spreadsheet review
- Excel for finance sharing and editing
- PDF for cleaner read-only circulation

8. Delete an Incorrect Transaction

Use deletion carefully.

Deleting a transaction updates both:

- the contributor total
- the campaign total

To delete:

1. Open `Reports`.
2. Find the transaction row.
3. Select `Delete`.
4. Enter your current password.
5. Confirm the deletion.

nly delete a transaction when you are sure it was posted in error.

Treasurer Best Practices

- paste M-Pesa messages exactly as received
- review the campaign before posting any transaction
- use clear contributor names for cash entries
- keep payment method details updated
- refresh and review the WhatsApp summary before copying it
- export reports after major collection periods
- do not delete transactions unless the entry is clearly wrong
- protect your password and change it if you suspect exposure

Troubleshooting

I cannot see a campaign

Possible causes:

- you are not assigned to the group that owns it
- the campaign belongs to another group
- the campaign was not created yet

Action:

- contact an admin to confirm your group assignment

My M-Pesa message was queued instead of saved

This means CrOMS could not confidently match the contributor.

Action:

- open the pending review item
- select the correct contributor or type the correct name
- approve and save it

I got a duplicate transaction warning

This means the transaction code already exists.

Action:

- do not post it again until you confirm whether it was already recorded

I cannot delete a transaction

Possible causes:

- your current password was entered incorrectly
- you do not have treasurer or admin rights
- the transaction does not belong to a campaign you can access

Action:

- re-enter your current password carefully
- confirm you are working inside your assigned group campaigns

Security Notes

- never share your login password
- log out when using a shared device

- confirm contributor names before approving queued entries
- protect exported reports because they may contain contribution data

Quick Treasurer Checklist

At the start of a session:

- sign in
- confirm the right campaign is selected
- confirm payment channels are correct

During collections:

- post M-Pesa payments
- post cash payments
- clear pending review items

After collections:

- refresh the WhatsApp summary
- copy and share the update
- export reports if needed
- correct any wrong transactions carefully

Summary

For a treasurer, CrOMS is centered on three main jobs:

- record payments accurately
- keep campaign summaries current
- produce clean reports for accountability

If you stay within those three workflows, most daily operations in CrOMS are straightforward and fast.
